

The Continuo Arts Foundation is committed to making a difference in the lives of individuals, communities and cultures through music. Supporting music education and musicians, Continuo Arts offers New Jersey's most comprehensive Intergenerational Choral Program inclusive of children through adult, senior citizens to professionals. The Continuo Arts Foundation is known for providing all-encompassing and unforgettable local, national and international musical experiences in concerts, classes, workshops and throughout the education spectrum; leading to a life-long love and support of the arts. Working in partnership with members, patrons, corporate and private sponsors, the Continuo Arts Foundation makes possible the education, performance and composition of music in ways which might otherwise be considered too unique or too expensive to be ordinarily under taken; giving precedence to considerations of quality over those of quantity; to artistic rather than to economic values and to opportunity over expediency. A 501 (c) 3 charitable organization, more information can be found at www.continuoarts.com.

The Vision

The Continuo Arts Foundation believes that exposure to the arts is essential to understanding our culture and heritage. We believe that music is of primary importance to the survival of civilization, to the health of society and to insuring the highest quality of life. The experience of music allows us to participate in the universal creative process, open hearts and minds, awaken feelings and bring delight and joy. We strive to understand and to promote music across the life span to all generations and around the world.

We believe that intergenerational musical experiences provide an important opportunity to become stronger individuals; to become more unified as a community by experiencing different cultures and backgrounds through music and in the process, make the communities we belong to stronger.

We are committed to innovative music education, exposure, enrichment and programming which engages the young and the old, the sophisticated and the first-time performer or listener, as well as those interested in understanding diverse cultures and genres.

The Mission

The Continuo Arts Foundation mission is to further musical education, performance, composition, exposure and appreciation from generation to generation.

History

The Continuo Arts Foundation was founded in 2007 and since that time, our commitment to procreate the arts through education, opportunity, performance, composition, and appreciation has grown to a global level.
